Billing Adjustment	\$ 25.30
(GST included on the invoice \$ 14.62)	
Total charges this period (GST incl) due on 21 February 2022	\$ 160.82
<hr/>	
Total Amount Due	\$ 160.82

Total Amount due:

\$ 160.82

Total charges for this period are due on 21 February 2022

Based on our records of your annual usage, you're already on the lowest cost plan we currently have available for you. To compare your plan with electricity and gas offers from other retailers, go to **Victorian Energy Compare** at compare.energy.vic.gov.au

This is a statement ONLY for your tax purposes. Please do not pay the account. The amount mentioned above will be Direct Debited from your account as per the above Due Date.

Your bill amount

Here's the amount you have to pay and when it's due. (If we ever owe you money that'll appear here too, as will information about your payment plan, if you're on one.)

Lowest-cost plan message

This blue panel will let you know if you're on our lowest cost generally available plan. If you're not, it'll tell you which of our plans is cheapest for you, and how you can switch to it.

The Victorian Default Offer is a reasonably priced electricity offer set by Victoria's independent regulator. Contact us on 1300 662 778 to discuss the suitability of this plan for you.

Congrats, eco-champion.

Support from businesses like yours helps us do the good green stuff that recently ranked us as one of Australia's top 3 greenest power companies.

Your account summary

This shows the status of your account on the date the invoice was issued. You'll see any previous balance, any payments or adjustments, any payment processing fees and/or solar rebates plus new charges.

VIC small/medium business customers: How to read your electricity bill.

Site details

This shows exactly where the electricity is being supplied. The NMI (National Meter Identifier) number identifies the connection point to your property. This section also shows the period of time this invoice applies to.

Index read

An 'index read' shows a meter's total accumulated energy usage since its installation. (This read isn't used to calculate your electricity charges.)

Supply charges

In a bundled invoice, charges for your account will look like this example. In an unbundled invoice, you'll see a detailed description of the charges broken down into various areas including energy, network (relating to the 'poles and wires'), metering costs and other industry costs.

Energy usage

Compare your energy use over different periods.

Greenhouse gas emissions

This shows the greenhouse gas emissions your electricity usage produced over this period.

Payment options

This payment slip shows you your payment options and gives you the info you need to pay your invoice. Some plans include card payment fees – you can check this in MyAccount (under My Plans).

Payment reference codes

Your payment reference codes are very (very) similar to your account number – just one digit longer. So be careful when you key them in, otherwise the payment can go to the wrong place.

Meter details

Your meter is read by a metering company – either remotely or by physically visiting your premises. This section shows the dates of your latest read and next scheduled read. Next to your 'Latest Read' you'll see one of the following letters:

A (Actual) – the consumption shown is based on an actual reading of your meter
S (Substitute) – your metering company hasn't been able to read your meter and has given us substitute consumption data
E (Estimated) – your metering company hasn't given us an actual read, so the

consumption shown is an estimate based off your past usage patterns.
F (Final Substitute) – your metering company hasn't been able to read your meter and can't get an actual read for this period. That means this substitute consumption data is final and will not be replaced.

Site Details

NMI	Supply Address	Bill start date	Bill end date	Days	Total cost (GST incl)
60000000000	123 MAIN STREET SUBRUB VIC 3000	11-Jan-2022	10-Feb-2022	31	\$ 135.52
