

We find a way to sustainably manage our assets and resources

We are all about our customers

We do the right thing and protect the environment

We ensure we are economically sustainable

Sustainability code

Our expertise in renewable energy positions our business and our community for a low carbon, sustainable future. We are committed to sustainability, balancing social, environmental and economic considerations to ensure resilience. Our commitment is outlined in the seven principles of our Sustainability Code, delivering on this will allow us to prosper in a changing global landscape.

We keep each other safe

We continuously improve our governance

We empower people and communities with clean energy

Stephen Davy
Chief Executive Officer
