## Green Team - Sustainability Committee Environmental Policy

### Forward thinking energy (example policy)

---

#### 1. Purpose

The purpose of this policy is to demonstrate Momentum Energy's commitment to reducing our ecological footprint by balancing our social, environmental and economic responsibilities.

#### 2. Vision

Momentum Energy's vision is to run a sustainable business and proactively reduce our ecological footprint through the implementation and maintenance of sustainability practises.

#### 3. Policy Statement

The Sustainability Policy will be the backbone to all future sustainability initiatives we investigate and implement. It will advise public and staff that we are taking an active part in sustainability, by reducing waste, energy and water consumption, and using environmentally friendly supplies.

Momentum Energy is proactive regarding sustainability measures and has implemented the following strategies to ensure the success of our sustainability programs:

- Sustainability committee
- Sustainability policy available to all staff and Momentum Energy customers via our website
- Educate new staff on initiatives
- Celebrate and share the success of Momentum Energy's sustainability improvements with staff and customers
- Communicate our performance to the market through article submissions, promoting our GreenPower product and press releases
- Communicate sustainability initiatives and plans to staff via regular email and direct communication and information sessions

#### 4. Strategy

Utilise the Action Worksheets to formulate your strategy and timeline.

#### 5. Measures

Utilising the Action Worksheets set some measured goals to achieve over the next 12 months and refer back to this policy to track the success of your plan.

#### 6. Roles and Responsibilities

State the the key stakeholders and the role they have to play within the policy.
