

Momentum EnvironmentalPolicy

A Sustainable Future through Responsible Management

We want current and future generations to enjoy the benefits of a clean and healthy environment and we endeavour to conduct our operations and provide services and solutions to our clients in an environmentally responsible manner.

Environmental Commitments

We are committed to:

- » being environmentally responsible;
- » minimising our impact on the environment
- » encouraging efficient use of energy;
- » supporting environmental initiatives and programs; and
- » minimising pollution

We do this by:

- » continual improvement in environmental management practices;
- » offering environmentally responsible products;
- » implementing objectives and targets that support;
- » our environmental policy and strategic directions;
- » providing energy efficiency advice to customers;
- » engaging with environmentally aware partners;
- » participating in initiatives which promote sustainability;
- » ensuring our staff and contractors have the necessary
- » expertise to fulfil their environmental responsibilities; and
- » aligning, where possible, with the broader environmental policy of the Hydro Tasmania Group.

Compliance with Regulatory Requirements

We ensure our activities, products and services comply with environmental legislation as well as relevant environmental commitments and agreements.

Open and Effective Relationships

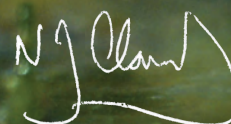

We work cooperatively with our customers, stakeholders and the community to find practical solutions to environmental management issues. We actively seek environmentally responsible partners.

We are open and honest in our provision of environmental information and ensure that we have processes for listening to our customers and stakeholders. Our environmental performance is publicly reported.

Reviews of Environmental Performance

We conduct regular reviews of our environmental performance to ensure that we are meeting our objectives and targets.
