Your account details

Your account number, your invoice number and the date this invoice was issued. (Don't use these for bill payments – see 'payment options' for the correct numbers.)

Your Electricity Account

ACCOUNT SUMMARY

Opening Balance 06/12/2021	\$ 194.28
Balance before this period's charges overdue now	\$ 194.28
<hr/>	
Electricity charges (please see over for details) (GST included on the invoice \$ 15.67)	\$ 172.34
Less Solar Rebate	- \$ 21.25
Total charges this period (GST incl) due on 4 May 2022	\$ 151.09
<hr/>	
Total Amount Due	\$ 345.37

Total Amount due:

\$ 345.37

Total charges for this period are due on
4 May 2022

Your bill amount

Here's the amount you have to pay and when it's due. (If we ever owe you money that'll appear here too, as will information about your payment plan, if you're on one.)

Your account summary

This shows the status of your account on the date the invoice was issued. You'll see any previous balance, any payments or adjustments, any payment processing fees, any concessions and/or solar rebates plus new charges.

Congrats, eco-champion.

Support from legends like you helps us do the good green stuff that recently ranked us as one of Australia's top 3 greenest power companies.

Need to get in touch?

Here's our contact details.

NSW, SA & QLD residential customers: How to read your electricity bill.

Site details

This shows exactly where the electricity is being supplied. The NMI (National Meter Identifier) number identifies the connection point to your property. This section also shows the period of time this invoice applies to.

Index read

An 'index read' shows a meter's total accumulated energy usage since its installation. (This read isn't used to calculate your electricity charges.)

Supply charges

This is where we calculate the charges on your bill. Each component of your tariff is listed here with the corresponding usage and price, all including GST.

Energy usage

Compare your energy use over different periods. This may also show the greenhouse gas emissions your electricity usage produced over this period.

Payment options

This payment slip shows you your payment options and gives you the info you need to pay your invoice. Some plans include card payment fees – you can check this in MyAccount (under My Plans).

Payment reference codes

Your payment reference codes are very (very) similar to your account number – just one digit longer. So be careful when you key them in, otherwise the payment can go to the wrong place.

Meter details

Your meter is read by a metering company – either remotely or by physically visiting your premises. This section shows the dates of your latest read and next scheduled read. Next to your 'Latest Read' you'll see one of the following letters:

A (Actual) – the consumption shown is based on an actual reading of your meter
S (Substitute) – your metering company hasn't been able to read your meter and has given us substitute consumption data
E (Estimated) – your metering company hasn't given us an actual read, so the

consumption shown is an estimate based off your past usage patterns.
F (Final Substitute) – your metering company hasn't been able to read your meter and can't get an actual read for this period. That means this substitute consumption data is final and will not be replaced.
